FRIENDS CLAIM DR. TIKHON SLAIN BY COMMUNISTS

[Chicago Tribune Foreign News Service.]

RIGA, Latvia, April 9.—Former Patriarch Tikhon of the orthodox church of Russia was murdered by communists to prevent the revival of the old church and the downfall of the soviet, according to advice received here from Russia. It is stated that the communists felt Dr. Tikhon's death was necessary to make way for the pro-bolshevik patriarch of Constantinople.

Persons associated with Dr. Tikhon say the bolshevik assertions that the patriarch suffered from cancer and that he had been confined to a hospital since the first of the year are wrong. It is claimed that Dr. Tikhon recently

visited distant places and on March 22 conducted services in connection with the consecration of a bishop which lasted four hours, indicating that he was in good physical condition.

Pick Temporary Leader.

MOSCOW, April 9.—[By the Associated Press.]—Metropolitan Peter, chief assistant to the Most Holy Patriarch Tikhon, who died yesterday, will head the Russian orthodox church until a permanent successor is chosen. Dr. Tikhon will be buried Sunday morning within the Donskoy monastery.

A solemn requiem high mass for Dr. Tikhon was celebrated today. More than a hundred high church dignitaries gathered around the coffin of the venerable patriarch.

Tokio Shaken by Most Severe Quake of Year

TOKIO, April 10.—[By the Associated Press.]—The sharpest earthquake shocks of the present year occurred on the eastern side of Tokio bay yesterday afternoon at 4 o'clock. They lasted fifty seconds. Severe shocks were felt in Tokio between 8 and 9 o'clock last evening.

MUSSOLINI ADDS RULE OVER ARMY TO OTHER DUTIES

[Chicago Tribune Foreign News Service.]

ROME, April 9.—Premier Mussolini today became minister of war, taking the place of Gen. Di Giorgio, who resigned on April 2. Besides being premier, Sig. Mussolini also holds the portfolio of minister of foreign affairs but, in a proclamation to the army, Italy's leader declared he will give his first energies to the army.

"My tasks are well defined," says Premier Mussolini's proclamation. "I intend to dedicate my greatest energies to the army. I expect that the army will remain faithful to its incorruptible tradition, based on rigorous abstention from political activity and on a high sense of duty. The army must maintain with our other armed forces of the state iron discipline, and cordial relations and above all, loyalty to the king of the country."

The other armed force refers, it is said, to the Fascist militia. The war ministry is only temporary because Sig. Mussolini is looking for some general who will carry out his ideas.

NAVY AVIATORS GET SPECIAL UNIFORMS A LA LEATHERNECKS

[Chicago Tribune Foreign News Service.]

Washington, D. C., April 9.—The navy has ordered its aviators to dress the part.

A new uniform has been designed to distinguish the flyers, marking a wide departure from the present attire. It will be worn by them when flying or working with aircraft and when in temporary aviation camps.

The uniform will be of khaki material, the same as that now used for the marine enlisted men, and will be forestry green like the marine's in winter, and khaki in summer. It will include a single breasted coat with roll collar, breeches which button from the knee down, russet puttees and shoes, and with the stars in black silk and the stripes indicating rank in black mohair. The shirt will be of khaki with soft collar. A black tie will be worn and the cap will be of the present design except that the cloth top will be of the same goods as the uniform.

COURT UPHOLDS COPYRIGHT LAW IN BROADCASTING

Cincinnati, O., April 9.—[Special.]—Holding that the broadcasting by radio of a copyrighted musical composition is an infringement of the copyright act, the United States Circuit Court of Appeals today reversed the judgment of Judge Smith Hickenlooper of the United States District court here, dismissing the suit of Jerome H. Remick & Co. against the Crosley Radio corporation.

The original action sought to enjoin the defendant from broadcasting the musical composition, "Dream Melody," copyrighted by the Remick company.

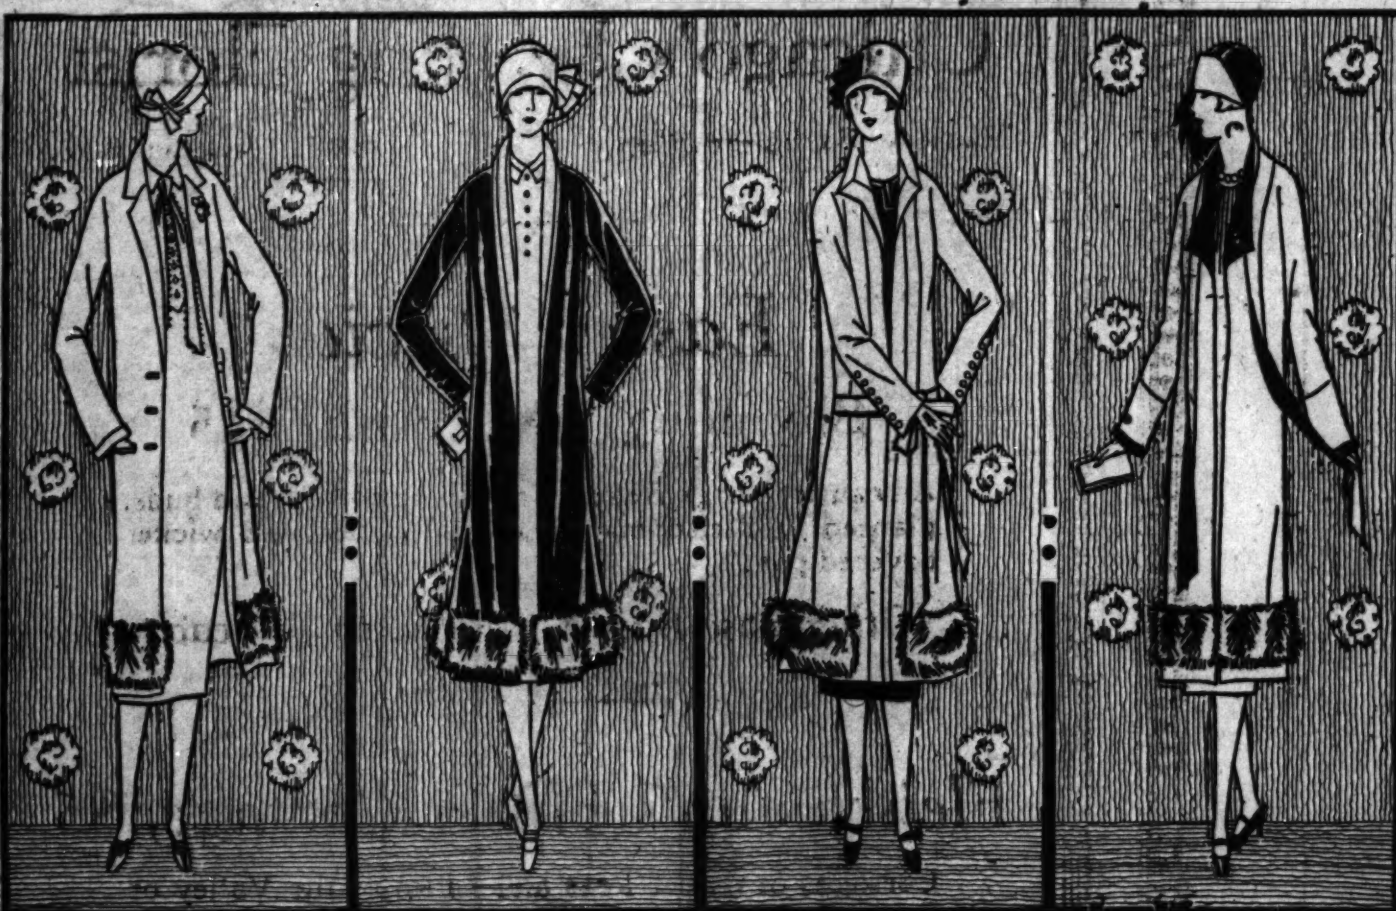

In reversing the lower court the Court of Appeals said: "While the fact that the radio was not developed at the time the copyright act was enacted in 1909 may raise some question as to whether it properly comes within the purview of the statute, it is not by the fact excluded from the statute. In other words, the statute may be applied to a situation not anticipated by Congress."

THE KAROLYI CASE.

Count Michael Karolyi, Hungarian noble and radical, former president of the one time Hungarian republic, having been in the United States three months, has crossed over into Canada. He was allowed to enter this country because his wife was here and was sick. The permit was conditioned on his promise not to talk while here. Later that condition was relaxed enough to permit him to make public addresses if he said nothing political or bearing on Hungarian affairs.

As soon as Count Karolyi was quit of United States territory and in Montreal he was free to talk and did. He said that the Horthy dictatorship at home, represented in Washington by the Hungarian minister, Count Laslo Szechenyi, had been able to influence the American state department. The Hungarian minister is the husband of the former Gladys Vanderbilt.

When Count Karolyi was unmuzzled he said that it was foolish of the American people to support a dictatorship of reactionary Hungarian diehards, who were on the wrong side of the war and on the wrong side of every principle of liberty and economic and social justice, and to support it materially by giving it financial aid in loans.

Karolyi and his wife have been called bolshes, both say they have no such sympathies but that they are democrats, pacifists and for land reform. Both attempted to cut up the great Hungarian estates when Karolyi was president of the republic. Horthy supports the feudalized land system. Americans have no use for that. They know it is the basis of a country which has it and they can understand a patriot who wanted to get rid of it. We can understand a pacifist in a military dictatorship better than a pacifist in a peaceable one. We also begin to wonder when it became American policy to muzzle a European politician in this republic.

The inveterate backers of Mr. Hughes, who was secretary of state when Karolyi was allowed to enter at all, and of the state department in general, have been making this case elsewhere. In our opinion these backers are wrong nearly all the time. They are mostly foam or fury, but in this case they seem to have a cause.

American Reds assemble and harangue to their heart's content. Now and then an alien Red is sent back home, and now and then the department of justice rounds up a group of domestic communists. The thing can easily be overdone, and some bureaucrats incline to overdo it.

We do not find much of old America in the muzzling of distinguished visitors, and when it is worked for military dictatorship abroad through Vanderbilt social parties at home we don't like it. All our recent tendencies have been towards the setting up of a dictatorship of opinion and habit, and when a shirt sleeved democracy heads that way it can outdo a belted, spurred and helmeted autocracy.

The incident has recalled the older America when Kosuth after the collapse of the Hungarian revolution in 1848 was rescued out of Turkey and brought to the United States on an American battleship. He was received by congress, and Daniel Webster, secretary of state, made a speech in his honor and for the revolution. The Austro-Hungarian minister went home in a huff.

We do not need to commit indiscretions any more, but we are a long way from first principles when a republican is out of order in the United States.

OUR PRIVATE COPPERS.

An automobile was driven to the curb in a loop street. The driver stepped out. A mounted policeman came up. The driver was a sleek individual with the air of one who was used to having his own way. He also looked as if he might enjoy flipping mortgages, evicting the tenant, or splitting 50-50 with the widow in an insurance adjustment case. The policeman told him he was not allowed to park at that spot. His look asked who said so. He did ask who said so. The policeman was good natured. The driver stuck out his chest, registered contempt for the copper, pulled a star out of his pocket, and flashed it. "That doesn't get you anything," said the copper. "The hell it doesn't," said the driver, and turned his back, walking into a building entrance. His car was at the curb and the policeman was making out a slip.

Just a guess that the slip didn't cause the driver a moment's inconvenience, although he may cause the policeman some trouble. We'd like to ask the mayor, the chief, the sheriff, and any other authority in the county or city how many of these police there are? What is the idea of recording an endorsement of indifferent citizens with a token that they can do as they please with the traffic laws and probably with others?

Have the authorities the foolish idea that these citizens are valuable in law enforcement? They give out a pretense of privilege to high hand it, to find any copper who calls them for law violation, and to say that their convenience is the law of the land. There's only one of the stars in this shop for all we know. They seem to be numerous enough.

A great many people in this city are prudent in doing exactly what they want to do whenever and wherever they want to. They do not need the endorsement of a badge in the pocket. The clock

at this writing shows 171 automobile deaths. What Chicago does not need is authorized lawlessness with a police badge pinned on it.

HINDENBURG'S
NOMINATION.

What the French and other peoples opposed to them in the late war may think or feel is evidently no concern of the German nationalist. If it were they would not put forward as their candidate an individual who must be taken outside of Germany, if not indeed within, as a symbol not only of monarchism but of warlike monarchy. The mere nomination of Hindenburg by a great German party will invigorate the charge that Germany cherishes revenge and is preparing as fast as possible for a new war. If Hindenburg receives a very small vote his nomination may have the contrary effect of quieting fears of a recrudescence of militarism and give the republic fresh credit and prestige as the deliberate choice of the German nation. But the nationalists will poll a considerable vote, and we feel that Hindenburg's nomination is a misfortune from the point of view of republican Germany and the growth of a better feeling in Europe.

If we thought the German nation were plotting a war of revenge, the exposure of military imperialism in the putting forward of the great fighting man and faithful servant of the Hohenzollerns would be welcome as a warning. But we believe the nation wants peace and that if the republic survives there can be developed an understanding even with France which will stabilize European conditions during the years needed for European rehabilitation. We can understand the appeal of monarchism and memories of power and prosperity connected with it have to many millions of the German people, but the past cannot be restored if never again, and to thrust Hindenburg forward for presidency of the German republic is to wave a red flag in the face of every enemy of Germany in Europe, to reinvigorate the parties and leaders most hostile to her in every country, give new life to the accusations of German belligerency and bad faith, and rouse distrust in well disposed America.

It seems a pity that the exigencies of party tactics in the confused politics of Germany have induced or forced Dr. Stresemann and his People's party to endorse and support the Hindenburg move, which must appear to American opinion as a most untimely gesture, if not an immediate menace.

PROFESSIONAL AMATEURS.

Vincent Richards, who can lick everybody at tennis except Bill Tilden, says he's sorry, but it looks as if he can't do any playing this year. He is up against a rule of the Lawn Tennis association which forbids him to write for publication about any tournament in which he takes part. Vinny would, in the normal course, compete this year for the United States championship and would represent the United States in the Davis cup tournament for the world's championship. As these are the only tournaments in which the newspapers are most interested, he must choose between playing tennis and making a living by writing tennis.

The Lawn Tennis association a year or so ago forbade players to write newspaper articles on pain of losing their amateur standing, but later, under pressure from Tilden, worked out the compromise which is now troubling Richards. The association is still trying to adapt English ideas of amateurism to American life and must continue to wobble from one compromise to another until the attempt is abandoned. It is the old story of the college boys who aren't allowed to play football if they have played baseball in the summer to earn their tuition. We copied that from England, where poor men's sons don't go to college. The line between professional and amateur in England is sharply drawn because of the tradition there which separates the leisured man from the working man. They belong to separate worlds.

To us that is smothery. We have invented the argument that professionals have different ethical standards from amateurs to justify it, but if there is any difference in moral tone between professional and amateur golf, for instance, it is to the advantage of the professional. Amateurs play to win in England just as they do here. Tennis is just as much an obsession with the ranking players there as it is here. They are at Cannes in winter while our players are in California. Their players live tennis quite as ours do.

The English amateur doesn't work for a living and can live his tennis without complications. The Americans generally can't. As our own tradition of victory is stronger than the imported idea, the Lawn Tennis association will be driven eventually to change its rules. We hope it will be in time to let Vinny play this year.

REDS IN THE ARMY.

Two United States army privates in the Schofield barracks at Honolulu were dishonorably discharged from the army and sentenced to prison by court martial for endeavoring to establish a branch of the Third Internationale. Private Crouch was sentenced to forty years and Private Trumbull to twenty-four.

Crouch was a university graduate and a Red. It is obvious that he enlisted in the army to carry out the work for which he was convicted. He says that Trumbull did not really know what he was doing, which is possible.

The sentences may seem excessive, but they will not when the offense is examined. The Third Internationale's purpose is the destruction of what the communists call bourgeois government. In this regard the United States has such a government. The object of the communists is to destroy it and set up the dictatorship of the proletariat. Crouch's activities were deliberately seditious. We know most of the American Reds are loony, and this attempt to corrupt the loyalty of the army may have been loony, but it was made in the most important military post in American control. The Red revolution began in the Russian army. The Reds think that the army is the cradle of revolution. Sometimes it is. Organizing sedition in the army is different from preaching it from a soap box. Therefore the severe penalty.

Editorial of the Day

LIBERALLY AND QUICKLY.

[Chicago Daily Star-Courier.] Only commendation can be heard down state for the liberality with which Chicago has responded to the appeal of the tormented stricken country. Around a million dollars at that reports had been raised in Chicago to be sent into the devastated country of which Murphysboro and West Frankfort are the center. It is a magnificent outpouring, three valuable because it was given quickly when the requirements were greatest.

No one can say that Chicago hesitated or shrunk from the situation when the elements tore a path of distress across southern Illinois.

How to Keep Well.

Dr. Evans will not make a diagnosis or prescribe for individual diseases. Requests for such service cannot be answered.

NURSES' LONG HOURS.

UPHILL nurses are required to work too many hours a day, to work too hard, and to live unhealthful lives and, in consequence, they have more than their share of consumption. At least, Dr. Schell says that is true in Norway. Some of the basic facts will be given, and, by comparison, it will be possible to decide to what degree the conclusions apply in other countries.

In a six year period it was found that a group of over 6,000 pupils nurses and nurses assistants had a tuberculosis rate of 2.16 per cent. In the same period the people 20 to 30 years of age in the same city had a tuberculosis rate of 1.3 per cent.

Why is it that pupil nurses have twice as much consumption as do other people of the same age? The decrease in tuberculosis as the years of education increase is shown by the figures 15-4-4-1. The nurses work from 7 a. m. to 7:30 p. m., with a liberal allowance for meal times. One day a week they have a holiday. They get a Sunday afternoon off, and on the night duty their work day is twelve hours, after taking out time for meals.

The work of a pupil nurse is very hard, especially during the first year of service. In addition, many of the pupils are country girls, brought up on farms and living under the trying conditions of city life for the first time.

A large part of the tuberculosis is located in the lungs and comes under the head of phthisis. But one-half of all cases of tuberculosis phthisis eventually develop lung tuberculosis.

Pupil nurses are also very apt to develop acute fat-foot.

Dr. Schell thinks every nurse entering training should be examined not only for tuberculosis but for feeble resistance power. These undernourished children should not be allowed to nurse cases of tuberculosis nor to handle the laundry from such patients. During their course of training they should be watched for evidence of tuberculosis. More important still, the pupil nurses should have shorter hours of work and lighter work.

The discussion of nursing in Norway brought out the fact that in that country they have a rural nursing system. In lonely and inaccessible rural mountains and coast districts it has been found advisable for the government to provide a rural nursing service. Christine Riis.

ALLEY ABOVE GRADE.

Chicago, April 4.—(Friend of the People.)—In its present condition, 4th street between Franklin and Halsted cannot be used by vehicles, as no thing of sufficient importance is being done to improve it. The street is a mass of deep mud, and the sidewalks are covered with thick mud. It is with great difficulty that it finally gets through.

FROM THE TRIBUNE'S COLUMNS

60 YEARS AGO TODAY

WASHINGTON, Secretary of War Edwin M. Stanton announced the appointment of Gen. Grant at Appomattox of Gen. Robert L. Lee and his confederate Army of Northern Virginia, on the terms proposed by Gen. Grant. The correspondence between Gen. Grant and Lee relative to the surrender was also made public. The first note of Gen. Grant is dated April 7 and reads:

"General: The results of the last week must convince you of the hopelessness of further resistance on the part of the Army of Northern Virginia in this struggle. I feel that it is no longer my duty to resist your arms, and I therefore surrender to you the Army of Northern Virginia. I am, Sir, very respectfully, your obedient servant, Robert E. Lee."

After some further correspondence on April 8, Gen. Grant, under date of April 9, gave Gen. Lee these terms of surrender:

"I propose to receive the surrender of the Army of Northern Virginia on the following terms, to wit: Rolls of all the officers and men to be made in duplicate, one copy to be given to the officer designated by me, the other to be retained by your officers as you may designate; the officers to give their individual paroles not to take arms against the government of the United States until properly exchanged, and each company to sign a like parole for the men of their commands. The arms, artillery, and public property to be paroled and stacked and turned over to the officer appointed by me to receive them. This will not embrace the side arms of the officers nor their private horses or baggage. This done, each officer and man will be allowed to return to their homes, not to be disturbed by the United States authority so long as they observe their parole and the laws in force where they reside."

Secretary Stanton said details of the surrender will be satisfactory to regularly as they are received.

10 YEARS AGO TODAY

APRIL 10, 1925.

WASHINGTON, D. C.—Germany has sent the United States a note calling the attitude of America unfair and intimating that the United States has virtually acquired in Great Britain's order its own political committee with Germany. Failure of the United States to send food to Germany is contrasted with the sale of arms to the allies, and it is intimated the United States is in violation of neutrality.

PETROGRAD.—Negotiations to obtain honorable terms of peace have been opened by Minister Franz Joseph Gusev here, according to the Bourgeois Gazette here.

PARIS.—The French, under the guidance of Gen. Joffre, are continuing with success their offensive movement against the Moselle and Meuse rivers. The statement says: "After a new and brilliant attack, the important position of Les Eparges, which dominates the plain of the Woerth, the enemy defended obstinately, is now completely in our hands."

TOLDOO, O.—Billy Wagner of Chicago battled Freddie Walsh, the light-heavy champion, in a draw in a ten round bout.

A LINE O' TYPE OR TWO

I AM THE LIGHT.
High on a hill they hung my God—
My God, who was the Nazarene;
And three long hours, awaiting blood,
He hung the earth and sky between.

And centuries have passed since then,
But still the Cross on Calvary's brim
Stands as a beacon for all men
Who go in darkness, seeking Him.

WE HATE to give up Line Nite next week, but we've just got to go to Mexico City, that's the way you pronounce it; it's not Mexico, it's Mee-ho-ko. On next Thursday night, which would ordinarily be Line Nite, we will be sitting under the tree in the plaza at San Luis Potosi, and a Mexican band in red pants will be playing "La Paloma," and the boys and girls will all be circling around the plaza, smiling sweetly at each other. Mr. Terry, who wrote *The Guide to Mexico*, says that any one intending to go to Mexico should learn ten Spanish words a day. We are working on a list of Spanish words that Don Silvestre Sotomayor gave me. It is a list of words, and Don Silvestre says it's a complete working vocabulary for any American traveler in Mexico. The words are: *Cerveza, aperitivo, vino de Oporto, tequila, vino tinto, ginestra, vino de Champagne, pulque, la Neta de vino, tragame una botella—and tengo mucha sed.*

Ah, May, We Love Our Little Sylvester.

I've known Marines and I've known Sailors, and give me the gobs any day. I'll admit Marines do look pretty standing in hotel lobbies. They look so pretty that they are mistaken for bellhops lots of times. But I must stop before I say something that will hurt their feelings, the poor fish.

CAPTAIN PROOT.

A LADY OF TROY.
You piled the cup of the slender moon
With kisses, high on high;
And those who loved you touched its edge
With their lips as it passed them by.

You spilled your kisses against the trees
And down upon the sand,
Where a cinnamon moon swung low, so low,
Above a drowsy land.

The years have drained the slender moon
Of kisses, high on high;
And the centuries have long been cold
Since you startled them with a sigh.

But some still love beneath the trees
And down beside the sand,
Where a cinnamon moon swings low, so low,
Above a sleeping land!

R. H. L.: Edmund Bill got a radio. Last night he'll sit down to enjoy the evening. Mrs. Percy Billup will sing "If I were a butterfly—". "Not for us the work," says Edmund, "I didn't buy this machine for fun, but for my squaw, on acct. they all would like the radio." A last word: "WIR-R-R!" (sound reproduced by dial tone whirled feverishly). "Miss Jenny Hafftin will sing 'O, fly with me.' WIR-R-R!" "Lissen," says Bus, "I betcha if Jenny could fly, the shenandoah road be the second biggest thing in the air."

"Sarah Soreehow will now sing 'I'd like to be a flower in the garden of your heart.' " "A.W. Hell!" says Bus. WIR-R-R!" "I wonder where them dimes dig up all that silly sentimentality!" Mrs. S. didn't say nothing on acct. "I'm too busy wondering why they let squaw sing that."

"WIR-R-R!" (sound reproduced by dial tone whirled feverishly). "The Dawn of Love." WIR-R-R!" (sound reproduced by dial tone whirled feverishly). "The Dawn of Love." WIR-R-R!" (sound reproduced by dial tone whirled feverishly).

APRIL
April is a laughing maid, with clouded amber curls,
She dances on the rainbow in a mantle fringed with pearls.

And when the sunshine grows too bright for mortal man to see,
She shakes her mantle and drops down the pearls to you and me.

MARJORIE F. W.

WELL, WELL! Thank you, Lee K. Musket. Do you know what your poem is? "The Last Day." It didn't do a thing but bring a check for twenty-five dollars. Our good friends, E. & H. McC., who have been very generous to the Buddy Fund before, wrote and said: "After reading *The Last Day*, we simply can't wait until we send this check to your Buddy Fund—this is to be applied to buying tags for the emergency men in hospitals. Thank you very much—the cigarette will be bought and Lee K. Musket smoking tags in his mouth and each ear will walk around and do the distributing."

Yip, Yip.
R. H. L.: Believe me the rest of them are "all wet." "Like a dog, he hunts in dreams," comes from "The Hound of the Baskervilles," by A. Conan Doyle.

Not Guilty. Case "Smised."
R.H. I did it. I am so glad they don't hang women in Illinois, so the most I can get is life, but I'd do it over again and feel that I rid the world of an unnecessary article. He was the L. O. M. that always says: "Well, I declare, you're getting better looking every day. I'll bet you have to use a club to keep the boys away." Honestly, Dick, wasn't I justified?

POLYGRAPH.

THE GUIDE BOOK says: "When you get into any sort of public conveyance in Mexico see that a policeman takes your name and the number of the cab or taxi. Strangers are sometimes driven to a lonely spot and robbed, or even murdered." Oh, how nice! Why, Mexico must be just like Chicago.

We Are Unfamiliar with the New Location.
R. H. L.: It is indeed a shame that so quaint and beautiful piece of German art, the German building, was allowed to become a ruin, that finally burned. It should be rebuilt by all means; but on a new suitable site. A fitting site would be that beautiful spot about two miles east of the present building.

HARRIMON.

THE REAL reason why we are going to Mexico is because there are no bootleggers there.

VOICE OF THE PEOPLE

Writers should confine themselves to 200 or 300 words. Give full names and addresses. No manuscripts can be returned. Address Voice of the People, The Tribune.

WHO'S RESPONSIBLE!
Chicago, April 4.—Today scores of motorists are driving with 1924 licenses, additional scores without any, and hundreds with tags well hidden from view behind bumpers. Some one is supposed to check up on all these. Who is the man? Let one of your staff interview him. Put his picture in the paper, and publish his reasons for not being on the job.

More than \$2,000,000 have been collected from motorists for city tags. Is not some of this money supposed to be used for the repair and paving of city streets? Send out a man with a camera. I'll pay a five dollar bill for a picture of a single gang repairing the pavement on any street.

Who is responsible for the wretched condition of our main streets? Find out the man. Take him for a ride over any of the loop streets. Clark street, from Lake to Van Buren, is a series of bumps and hollows, and is no worse than other loop streets. North of the loop, out Dearborn or La Salle, it is difficult to remain in the seat of an ordinary light car such as hundreds of salomones daily. And many streets are filled with deep ruts that are actually dangerous.

A few days ago the writer pulled up at the curb on Madison street just east of Webster, to consult a memorandum book. Before I could turn the pages of my book I was startled by a clattering of hoofs. A mounted officer nearly galloped up on the running board and, in a voice that could have been heard a block away, ordered me to move. Before I could start he had repeated his command three times and spurred his horse so that it performed around the car, attracting a good size crowd, and affording me no opportunity to explain. If these officers like to perform, why not give a real show in Grant park?

Dimly I recall an ordinance that compels the use of receptacles for ashes. Whoever is responsible for the enforcing of this rule is invited to inspect the ash receptacles on Madison street, south of the 1200 block in Roosevelt street.

EVERYBODY HAPPY?
Chicago, April 5.—Why is it necessary to continue agitating the question of the Volstead amendment when it seems that a majority of our people are entirely satisfied with the law as it stands? The men who are fond of inflicting such penalties on those who are not happy with the material supplied everywhere, or if that is too much trouble such beverages can be easily procured.

Those who are responsible for this law say they are entirely satisfied with the situation as it exists today, as they consider its enforcement a success and point with pride to the good it has done. They got what they wanted to have the law

WE SUPPRESS A BOG.
Chicago, April 2.—Two weeks ago I wrote a letter to the "Friend of the People" of a dog named in my neighborhood and the night after making the letter the noise was completely stopped and there has been quiet ever since.

I received a letter from the police chief's office informing me that the dog was ordered kept inside during the night.

I hereby extend my thanks to the Tribune and my appreciation to the police force for their efforts in this matter.

MISS LEILA WILLOUGHBY

TO SECURE TURK AID IN EUROPE

Nations to Exchange Military Missions.

By RAYMOND FENDRICK.

Special Tribune Service.

Constantinople, April 9.—An

agreement of alliance between

France and Turkey is in process

of completion in Ankara. The basis

of the treaty was established last week

when French Minister of War, Raymond

Fendrick, and Mustafa Kemal, the

Turkish president, met in Ankara.

The treaty is of much wider

scope than the Franco-Turkish

agreement of 1921. It is a

complete alliance. Another is that

the French government is sending a

large military mission to Turkey under

Gen. Raymond Fendrick, and Turkey

is sending a similar mission to

France.

Gen. Fendrick's mission is to

organize the Armenian police.

TWO SPECIAL STAMPS APPEAR AS POSTAL RATES ARE BOOSTED

Washington, D. C., April 9.—(Spe-

cial)—Two new postage stamps, the

insurance of which is necessary because

of the increase in postage authorized

by congress, effective April 15, are com-

ing off press at the bureau of engraving

and printing. It was announced by

Postmaster General New today.

One is the 15-cent special delivery

stamp for use on parcels subject to the

increased special delivery rates. The

other is the 25-cent special handling

stamp designed to give fourth class

matter the same expeditious treatment

as is accorded first class mail in transit.

The new 15-cent special delivery

stamp is of the same size and design as

the present 10-cent special delivery

stamp, but the color is orange.

The 25-cent special handling stamp

also has the same shape and size of the

other two, but the design is entirely

different. In the center of the stamp

are the numerals "25" surmounted by

the words "special handling" arranged in

a semicircle. The color is dark green.

alliance with France because they fear

the Russians and hate the English.

Pledge Military Support.

The new treaty alliance is based on

the Ankara accord, whereby France

and Turkey agreed to exchange mili-

tary support against Great Britain in

case of trouble over Syria. The Turks

are not only asking France for full

control of the Bagdad railway, but for

the exclusive right to protect bridges

along the line while sending troops to

Kurdistan to crush the revolt.

PERU'S PLEA TO REOPEN TACNA AWARD DENIED

Coolidge Fails to Find Plebiscite Unfair.

Washington, D. C., April 9.—(Special.)—President Coolidge's reply to the Peruvian memorial concerning the Tacna-Arica dispute between Chile and Peru, which was delivered to the embassy today, is a polite but firm refusal to reconsider his decision, or to comply with the numerous conditions asked by Peru, including the dispatch of United States troops to the scene to displace Chileans in control of the disputed territory.

The Peruvian memorial, signed by Solon Polo, president of the Peruvian defense commission, was transmitted on April 2 to the secretary of state for transmission to the President and was made public by the state department at the same time that the President's reply was made available.

Objects to Decision.
The memorial, after expressing the appreciation of the Peruvian government for the President's work in the case, proceeds to voice its objections to the findings in detail.

President Coolidge's reply points out that under the arbitration agreement and under international law, the decision was to be "final and without appeal," and adds: "This reply will meet here."

The President continued, however, that in view of the situation, it was deemed advisable to make certain additional observations. These are, first, that the translation complained of in the Peruvian memorial was the one submitted by Peru herself, and also that the problem was one which went beyond this question of translation and was one of construction, and substance, rather than academic in character.

In Accord with Treaty.
The President's reply pointed out that the award was in entire harmony with the practical construction placed upon the treaty by the two countries in their dealings with one another, during the period from 1894 to 1912, after the expiration of the ten year period.

Answering the Peruvian charge that the President failed to give weight to the allegations of Chilean atrocities, the reply declared that the arbitrator "weighed the evidence with greatest care, but did not find the proofs sufficient on which to base a finding that a fair plebiscite in the present circumstances cannot be held under proper conditions or that a plebiscite should not be had."

The President suggested that the charges in detail of expulsions and oppression since the announcement of the award be brought to the attention of the plebiscitary commission when it shall have been constituted.

Will Carry Out Award.
He expressed gratification, however, that in spite of the complaints made in the memorial, the Peruvian government will carry out the award.

The reply pointed out that both sides had been given full opportunity to be heard on the questions under

FUNERAL TO BE HELD TODAY FOR REV. R. E. ZIEGLER

The Rev. Robert E. Ziegler, 46 years old, pastor of the Park Manor Congregational church and former pastor of the Harvey, Ill., Federated church, died yesterday at the Presbyterian hospital. Funeral services will be held today at 12:30 at the Park Manor church in charge of Dr. Gilbert Wilson, pastor of the New First Congregational church. Burial will be at Mount Pleasant, Mich. The Rev. Mr. Ziegler is survived by his widow and his parents.

consideration, including those concerning the conditions of the plebiscite, and that Peru had failed to request findings in this regard.

The President stated that despite this oversight on Peru's part, the interests of the latter were fully safeguarded. The President reassured the Peruvians as to the provision of proper safeguards for the plebiscite, citing first the fact that the powers of the plebiscitary commission are "ample" in this respect, and especially that the arbitrator has named as president of this commission Gen. Pershing, a distinguished American who, himself, embodies every guarantee in his character and personality."

HEAP TOO MANY COPS IN PRISON; IT SADDENS JOE

Canon City, Colo., April 9.—Mormon Joe, aged Ute Indian player, has surrendered his name for a prison number, but his personality refuses to become a part of the drab routine of the state penitentiary, where he has begun serving a term of from twenty to twenty-five years for the murder last week of a fellow prisoner in the Montezuma county jail.

When he entered the prison Joe summed up his opinion of the institution with the words, "Heap too much policemen here." The "policemen," however, decided to treat him kindly, and Warden Thomas J. Tynan permitted the Ute to roam the prison yard at will until today.

Then, enraged at the apparent failure of his tribal gods to rescue him, the medicine man became threatening in his attitude toward guards and fellow prisoners.

"Look him up," was the warden's order. "Maybe that's tame him down a bit."

Chisel Pierces Jugular
Vein in Fall Downstairs
Jacksonville, Ill., April 8.—Harry McFarland, 62, member of the firm of McFarland Brothers Dry Goods company at Carrollton, south of Jacksonville, was found dead in a pool of blood in his store this morning. He had just returned with a kit of tools from making some repairs at a church when in some manner he fell down the stairs of his place, and was found with a chisel piercing his jugular vein.

LEAVES "SCALP" TO HER ENEMY IN SUICIDE NOTE

Find Child, Still Living, in Mother's Arms.

New York, April 9.—(Special.)—Leaving instructions that her hair be cut off and given to an unnamed man in order that he might wear it on his belt, "as the Indians used to do," Mrs. Anna Mae Rieger, 34, despondent over the wreck of her married life, committed suicide today by turning on three gas jets in her apartment. In spite of her careful preparations, Mrs. Rieger failed in one respect. She was dead when Policeman William Smith, summoned by neighbors, broke into her apartment. But her 6-year-old daughter, Rosalie, whom she had planned to take with her and who lay clasped in her mother's arms, was still breathing. Prompt work by the policeman has believed to have saved the life of the child. The policeman later was used and it was said at the Knickerbocker hospital Rosalie probably would live.

Find Letter on Table.
On a table in Mrs. Rieger's apartment were three pages of a four page letter.

"I have lost everything in life but my self-respect and my honor," the letter said.

The letter's reference to a third person comes when the writer said: "The Jew and his accomplices had better learn something about kicking and scolding women, particularly when a woman has a child and will fight like a tiger for its young."

Put House in Order.
"I have been up all night," the letter goes on, "and I am crying as I must wash my hair and put my house in order. Give my hair to the Jew as he can wear it in his belt as the Indians used to do."

RED CROSS-A. OF C. STORM RELIEF FUND BOOSTED TO \$920,808

A transfer of \$38,443.31 from the Tuscarora fund to the Association of Commerce-Red Cross storm relief fund yesterday put the latter far ahead of the \$900,000 mark. The exact total to date is \$920,808.02. The check from Tuscarora is the second to be received by the treasurer of the Red Cross fund and represents donations received up to April 1, exclusive of more than \$85,000 transferred in the first check.

Public schools of the city yesterday donated, through Supt. McAndrew, \$14,461.13 additional to the Association of Commerce-Red Cross treasury. The Chicago Exchange of Chicago sent in \$1,423.50, and the Sorists of Chicago contributed \$38.50.

Contributions to the Tuscarora-Legion fund amounted to \$147.50 for the day and brought the total to \$124,221.53. They were as follows:

\$14.00—Washington Boulevard temple.
\$25—Employees Alfred Pease Co.
\$25—Ladies' auxiliary of Temple Shalom.
\$10—Oto Helman, Inc.
\$10—Ludlow High school.
\$10—Sigma Phi society.
\$10—Frank T. Tolks.
\$10—T. B. Paper.
\$10—The Brooklyn Presbyterian Sunday school.
Yesterday's receipts \$147.50
Previously acknowledged \$124,074.03

Arrest of Five Believed to Solve Many Robberies

With the arrest of five young men last night police believe they have cleared up a score of holdups and burglaries on the north side and in Evanston. The youths have confessed to several robberies. They are Joseph Brooks, 6240 Magnolia avenue; Marvin Hiles, 5721 Waukegan avenue; Harold Humphrey, 1740 Foster avenue; Oscar Neef, 1900 Berwyn avenue; and Stanley Rydon, 1663 Carmen avenue.

California Bill Aimed at Sale of Poison Booze

Sacramento, Cal., April 9.—The lower house of the legislature approved today a bill making it a felony to sell food or liquor containing wood alcohol and, providing, should a person die as a result of drinking liquor containing wood alcohol, the person making the sale would be guilty of murder. The measure, its author said, is aimed at bootleggers who use wood alcohol.

VICTIMS NAME THREE YOUTHS AS HOLDUP MEN

Police Believe They Are "Bandanna Bandits."

The looks of three young fellows who passed them on a south side boulevard about midnight Wednesday night, riding in a blue sedan, didn't please Serg. Ray Crane and four members of his squad, who were riding about a bit. They chased the car and caught the disappearing trio.

Yesterday at the Woodlawn station the three were identified within a few hours by fifteen persons who have been robbed in the last two weeks in the south shore district. The three men are William Hasselbauer, 19 years old, 241 West 45th street; Dave Brimble, 29 years old, and James Dunne, 22 years old, 5453 Dorchester avenue. Dunne, police said, is at liberty now on a \$20,000 bond on a charge of robbery. The three men, according to Serg. John Klanske of Serg. Crane's squad, are thought to be the "handkerchief bandits" who for three weeks have been reported wearing bandana handkerchiefs about their faces during robberies they have committed about the south side.

Brimble's wife, Marjory Brimble, a waitress, was found early yesterday morning in a hotel at 5470 Lake Park avenue. Police held her because in her room they found a suitcase of ties and mufflers thought to have been stolen from a Marshall Field & Co. salesman last week. The girl declares her husband is an invalid and no bad man at all. He was a chauffeur, she says, until six months ago, when he was injured by a fall.

Meanwhile the three men are being viewed by every eye who has been robbed lately on the south side. They maintain their innocence.

When Chicago Bankers Buy Varnish

Liquid Granite is Specified

Bankers are shrewd, conservative buyers because they know the earning power of money.

When a banker buys varnish, it goes without saying that he buys good varnish - varnish that will wear!

Scores of Chicago's finest new bank buildings are finished with Berry Brothers' varnishes, enamels and stains. A case in point is the new Security Bank at Milwaukee, Chicago and Ogden avenues, finished with Liquid Granite Floor Varnish and Luxe berry Wood Finish.

In making investments it is wise to follow a banker's advice. And Liquid Granite Floor Varnish is an investment that nine out of ten bankers will recommend.

At last - a real Whole Wheat Cracker

Unlike ordinary white flour crackers TRISCUIT is made from perfect whole grains of wheat cooked in steam, shredded and baked. A lot of real nutriment in concentrated form. The crisp, savory shreds of baked wheat encourage thorough chewing, and that means good teeth and perfect digestion.

TRISCUIT is ready-cooked, but tastes better when toasted in an oven and served hot with butter. At all first class grocers.

F. MCCORMICK GETS GUARDIAN FOR MATHILDE

New York, April 9.—(Special).—F. McCormick, divorced husband of Mrs. Edith Rockefeller McCormick, applied in the Supreme court today for appointment of a guardian for his daughter, Mathilde Oser, and her daughter, Anita Oser, in the estate of the late F. McCormick.

company as trustee under a deed of trust executed by John D. Rockefeller in 1917, by which he set aside stock in the Standard Oil Company of Indiana for the benefit of his daughter, Edith Rockefeller McCormick, for life.

Because of a number of stock dividends of the original trust shares the company believes Mrs. Rockefeller is entitled to payment of about \$8,000,000 and is asking for a court ruling on the question and for the approval of its accounts.

Argument for Guardian.

Mr. McCormick's affidavit stated that his daughter is 15 years of age and lives with her husband, Max Oser, at Kirkenfeld, Bern, Switzerland, and that the determination of the suit may materially affect his daughter's interest and for that reason she should be represented by a guardian. He said that his granddaughter, less than a year old, would be entitled to the entire trust fund "on the happening of certain contingencies."

Mr. and Mrs. Oser both made affidavits in connection with the application consenting to the appointment of Mr. McCormick.

WOUNDED MAN'S AUTO CASE UP TO TWELVE JURORS

Twelve jurors will hear the appeal case against August T. Peletor, 705 Lombard avenue, Oak Park, next Thursday. The trial was postponed to that date yesterday by Justice of the Peace Frank L. McKee of Oak Park, when John L. Davidson, Peletor's attorney, accused the magistrate of fixing the jury of six assembled to try the case. When McKee postponed the case to allow a larger jury, Davidson apologized.

Peletor was the innocent bystander in the holdup, March 25, of Boyson's jewelry store. A well meaning but inaccurate watchmaker sent fourteen buckshot into one of his legs. Since then he had lain in bed. Tuesday he took his family out riding in his car. Motorcycle Policeman Borg arrested him on a charge of speeding. Peletor objected to being arrested, declaring that police inefficiency had been the cause of his wounds. Then he demanded a jury trial.

Prince of Wales Swelters as Thermometer Hits 118

RESPONDING, Gold Coast, West Africa, April 9.—(By the Associated Press).—Experiencing the intense heat of equatorial Africa for the first time, the prince of Wales, sailing southward on his tour of South Africa and South America, arrived here today. Below decks the temperature on H. M. S. Repulse has reached 118 degrees. But there was no complaining in the welcome to the prince. The whole town was decorated, while native chiefs appeared in bejeweled palanquins.

20 Die, 60 Hurt in Wreck of Electric Trains in Spain

DEFENSE ANGLE IS STRESSED IN SHOALS INQUIRY

Washington, D. C., April 9.—President Coolidge's Marine Shells commission, headed by former Representative C. MacKenzie of Illinois, at its first executive session today, decided to visit the project on a date to be determined later, and to open headquarters here to receive any proposals regarding disposition of the property. Acting on the President's suggestion, obtained at a White House conference, the commission communicated with representatives of the war, commerce and agriculture departments.

Assistant Secretary of War Davis, appearing for his department in the absence of Secretary Weeks, who is ill, told the commission an adequate supply of nitrates should be insured as national defense measure.

Gets 14 Years for Slaying; Faces Trial for Another

After deliberating five hours in Judge William Lindsay's court last night a jury fixed the punishment of John Kacmarek, a former convict, who was charged with killing George Jereba, at fourteen years' imprisonment. SAILSTAD, WHO BURNED BODY TO ELOPE, PAROLED

'Sunshine Girl' Also Will Seek Freedom.

Green Bay, Wis., April 9.—Edward J. Sailstad, serving a four year sentence in the state reformatory here on a charge of arson when told today that he had been granted a parole, said he was anxious to find a position as soon as possible and resume his activity as a private citizen.

It was announced at the institution that Sailstad had expressed no preference concerning the kind of work he may take up. He will be released as soon as prison authorities find suitable employment for him.

Work Is Satisfactory.
He has been in the reformatory since Dec. 30, 1932, during which time he has received no demerits and his work has been highly satisfactory, according to officials of the reformatory.

Dorothy Anderson, Sailstad's "sunshine girl," who was sentenced to four years at the women's industrial home at Taycheedah in connection with the same case, will not be considered for parole for several months. It was announced today. She has stated she will apply next month.

The trial attracted wide interest because of the nation-wide search for the pair, who disappeared after the burning of a cottage on Lake Nebesago. At the trial it was brought out that the body of a friend of Sailstad was taken from its grave and placed in the burning cottage with some of Sailstad's personal effects while he and the Anderson girl disappeared.

Found in California.
Insurance companies investigated the case and were instrumental in forcing a two year search for the couple. Sailstad and the Anderson girl were finally found at Napa, Cal.

BOY WIND VICTIM DIES FOLLOWING FACIAL GRAFTING

All the wisdom and medical skill of experts on the staff of St. Luke's hospital failed to save the life of Troy Haney, 2 years old, a victim of the tornado.

He died yesterday after a series of operations on his face that would eventually have given him almost a complete set of new features. The baby was torn from his mother's arms by the wind and hurled into the yard of their home at Murphyboro. His mother was found several hundred feet away, suffering with a fractured leg. She is now in the Barnes hospital in St. Louis. Her husband, a laborer, was not injured.

Miss Marie Haney, Troy's aunt, brought him to Chicago, where the operations preparatory to grafting a new nose and lips, cut off by some missile of the storm, was performed, but in vain. The body of the child was taken back to Murphyboro yesterday by Miss Haney.

125,000 CANCER DEATHS A YEAR, DOCTOR REPORTS

New York, April 9.—[Special.]—Cancer is costing the American public 125,000 lives and an economic loss of \$450,000,000 yearly, according to Dr. Francis Carter Wood, director of the Institute of Cancer Research at Columbia university, in a report today to the Gorgas Memorial Institute of Tropical and Preventive Medicine.

Of this number Dr. Wood estimates that probably 15,000 deaths could be prevented annually if cancers were treated by reputable physicians within a few weeks of formation.

"Every one, especially those over 40 years of age, should keep watch for anything which resembles a tumor, and if one is found a physician should be consulted," says the report.

"So far the only adequate treatment for cancer is surgery. X-rays and radium arrest growth and delay the progress of the disease, but eventually it returns. In cases where surgery is applied at least a quarter fully recovered."

"Cancer is not hereditary, nor is it contagious or communicable. Its chief cause is irritation."

John Sullivan was elected president.

BOOZE HIJACKERS GIVEN TERMS IN JAIL AND FINED

(Picture on back page.)

Dan McCarthy yesterday became the latest of the booze hijacking gang to indulge in the popular current whim called "copping a plea."

In the jargon of the law, let it be explained, "copping a plea," means to admit one's guilt in a crime to prevent heavy sentence. Dan copped and got six months in the Kane county jail and a \$1,000 fine. The same procedure was followed by his co-defendant, Earl Welan, who drew the same punishment.

McCarthy's and Welan's action was a surprise to court attachés, for McCarthy and the late Dean O'Banion previously were tried on the same evidence planned by the government and the jury disagreed. Welan was not a defendant at the first trial because of illness.

McCarthy and Welan were charged with hijacking a truckload of whiskey at 21st street and Indiana avenue at 11 o'clock on the morning of Jan. 24, 1934.

Mount Vernon, Ill., April 9.—[Special.]—Attacked by a rooster which he was annoying, the 4 year old son of Mr. and Mrs. Major Singleton may lose the sight of one eye. The rooster flew into his face, striking at his eyes with its talons. The boy received deep cuts on the face and the eyeball was lacerated.

U. S. DELEGATES TO GENEVA ARMS PARLEY NAMED

Washington, D. C., April 9.—[Special.]—President Coolidge today named Representative Theodore Burton (Rep., O.) as chairman of the American delegation to the conference to be held at Geneva, Switzerland, on May 4, to work out a convention regarding the control of the international trade in arms, munitions, and war implements. In addition to Chairman Burton the

delegation selected by the President included:
Hugh S. Gibson, American minister to Switzerland, vice chairman; Rear Admiral A. T. Long, navy department; Allen W. Dulles, chief of the division of near eastern affairs, state department; and Brig. Gen. Cullen L.H. Rugles, assistant chief of ordnance.

The conference will be held under the auspices of the league of nations.

Protect your gums and save your teeth

Just as a ship needs the closest attention under the water-line, so do your teeth under the gum-line. If the gums shrink, serious dangers result.

The teeth are loosened. They are exposed to tooth-base decay. The gums themselves become tender and bleed easily. They form sacs which become the doorways of organic disease for the whole system. They often disfigure the mouth as they recede.

Prevent Pyorrhea with Forhan's
If used in time and used consistently, Forhan's will prevent or check its progress. Forhan's is safe, efficient and pleasant-tasting. It preserves gum health, corrects tender gums, spots, hardens gum tissues so they will offer proper support to the teeth, and keeps your mouth fresh and healthy.

Forhan's is more than a tooth paste; it checks Pyorrhea. Thousands have found it beneficial for years. For your own sake ask for and get Forhan's For the Gums. At all drug stores, 35c and 60c in tubes.

DICKIE AND BABE NEST AND CHAT; BAR LOOKERS ON

**Eat Matzos and Attend
Passover Service.**

Dickie Loeb and Babe Leopold returned from the world yesterday when they spent the day at the recesses of the chapel at the state penitentiary in traditional observance, alone with fifty-eight others of their race, of the rites of the Passover.

Do the scores of visitors who yesterday toured the prison, hopeful of seeing the two murderers of Bobby Franks—Dickie making chairs and Babes in the rattan shop—didn't even catch a glimpse of them.

Newspapermen who had journeyed to Joliet were no more fortunate. Warden John Whitman, in his effort to prevent any publicity regarding the two prisoners, is swinging the pendulum in the direction of almost complete isolation except for the bi-monthly visits of relatives. Even yesterday many from this country and from Europe, have been denied permission to see the boys, the warden yesterday pointed out.

While Kimmis, who spread rat poison on the homemade bread and fed it to his husband, may be seen, so may Elsie Malm, the "tiger girl," and Mrs. Elsie Swendsen of Mount Vernon.

But Loeb and Leopold are never to be seen, and yesterday was no exception to the rule.

The two boys got up yesterday at the regular time, 6:30. But instead of having breakfast with the other prisoners, these two and their fifty-eight Jewish companions were served a specially prepared menu in the anteroom of the chapel. Matzos and hard boiled eggs were served at each of the three meals yesterday.

Attended Passover Service.

Following breakfast the two friends attended the services conducted by Rabbi David Rosenbaum. The rabbi, who lectured on the meaning of the Passover, there were personal devotion, more prayer, and the morning service was over.

Dickie and Babe, in the leisurely day that followed, with chapel services interrupted, had much opportunity for conversation. Prison officials yesterday contradicted the rumor that this is the first time since their commitment that the two boys have spoken with each other, and they mention another Jewish religious day which was observed shortly after their arrival.

At present Babe and Dickie are in

different shifts for meals; they work in different shops; they sleep in different tiers of cells. That, the officials declare, explains the few interviews they have had with each other since last October.

No Visitors for Slayers.

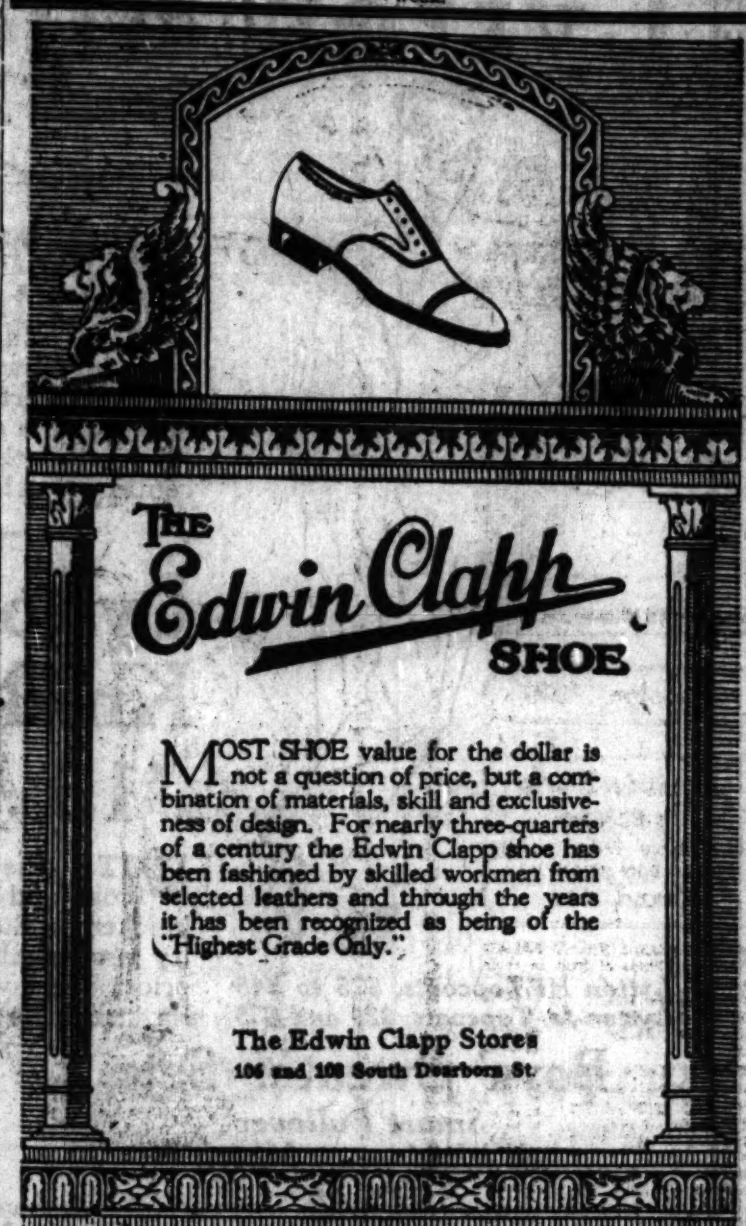

Some of the sixty prisoners observing the Passover yesterday received visits from their relatives. Loeb and Leopold did not. Dickie had a visit last Tuesday, and that, according to the prison rules, must last him for two weeks. Nathan F. Leopold Jr. is expecting a visit in a few days.

Spiritually the Passover lasts for eight days. Actually, the sixty men will, by their own preference, be back at their regular work today, and will continue as it until next Thursday, when they will again spend the last day of the religious octave in the chapel with the rabbi.

SEE CHANCE OF U. S. REMOVING KAROLYI GAG

Application to Return
Might Change Status.

(Picture on back page.)

Washington, D. C., April 9.—(Special.)—Count Michael Karolyi, exiled first president of Hungary, may be allowed to enter the United States unopposed next fall.

Inquiry at the state department today elicited the statement that if the count, who for the last three months has been a storm center in New York as the result of a state department ruling which allowed him to remain in this country only on condition that he refrain from talking on political subjects, again asks to enter the United States, his application will be treated as a new case in making a decision.

Has Not Changed View.

Department officials were careful to observe, however, that this did not mean that the department had changed its point of view in any way. It simply meant, it was explained, that the present Karolyi case was now closed with the count's departure for Canada, and that a new application would be treated as such.

On other phases of the Karolyi case they were as miffed as they had tried to keep the Hungarian count. It was said the department stood on its statement of facts as they have been published at various times by the department.

Officials in other departments of the government, however, believe that a new application may be considered more favorably next fall. They point out that Karolyi had accomplished in this country, with the aid of the state department, just what the department had hoped to avert; that is, the stirring up of excitement and trouble.

Gag Reasons Kept Secret.

When Karolyi, at the suggestion of the United States, asked for a passport to come to this country to see his sick wife, he was told the only condition imposed by the state department was that he refrain from political activities while in this country.

In defending this action Secretary of State Hughes told Senator Borah (Rep., Ind.), chairman of the foreign relations committee, that Karolyi had been gagged for reasons which it would not be compatible with the public interest to make public.

Other officials said today, although it could not be confirmed at the state department, that the real reason Karolyi was gagged was because the department had received reports from agents abroad to the effect that the Hungarian count was a trouble breeder and had been the center of unfavorable political activity in every country he had visited.

Deported by Italy, Claim.

It is also known that it has been reported to the department that Karolyi had been deported from Italy because of alleged political activities, some of which, it is alleged, were more than tinged with communism. It was believed that if Karolyi were

T. B. MAY HOLD SECRET OF LIFE, SCIENTIST SAYS

Baltimore, Md., April 9.—Science is nearer an understanding of the chemistry of life processes, according to a report to the division of organic chemistry here today by Prof. Treat E. Johnson of Yale university, who announced the finding of new compounds in the nucleus of the cell. Prof. Johnson's report was one of a series submitted to the division showing rapid development of chemistry and medicine in attacking disease.

The minute cell, Prof. Johnson explained, is the fundamental unit of all living matter, and it is within the nucleus of the single cell that all vital forces are centered.

Once the chemical behavior of life processes is understood, it was pointed out, the conquest of disease may be found comparatively simple. It is even possible, it was said, that the riddle of life may be solved first through the conquest of tuberculosis.

More than sixty papers were read by experts before the division of organic chemistry. Mercury dyes show promise in the treatment of blood poisoning, it was said by Prof. George W. Raines of the University of Pennsylvania.

gaged his visit in this country would be brief and would excite no comment. But just the reverse proved to be the case. Karolyi jumped into the limelight when his friends called attention to the fact that he was not allowed to talk.

The state department was asked to lift the ban. It refused. Senator Borah asked for the reasons for the ban. Secretary Hughes stated that by the act of March 22, 1918, the secretary of state had the right to stop Karolyi from discussing political subjects in this country.

Assistant Secretary of State William R. Castle, who was handling the case, was appealed to by Karolyi's friends. He, too, refused to temper the department's action. The countess in last effort called on Mr. Castle in Washington Tuesday, but was unable to change the department ruling.

Castle's statement.

When it was brought to Castle's attention that the count had broken silence in Montreal, Canada, and charged that pressure brought by bankers and the Hungarian government had caused the department's action, he said the department stood on its first reply to that charge—that was that it was not true.

As the matter now stands the Countess Karolyi expects to make a lecture tour of the United States this fall. Her husband has been quoted in Canada as saying he would come to this country to live at that time if allowed to enter untrammelled by conditions.

SANITARY BOARD, CUTS ESTIMATE OF BOND NEEDS

Trustees of the sanitary district of Chicago yesterday voluntarily made a cut in the percentage of bonding power they are seeking from the legislature in order to carry out the first five years' program for sewage disposal, laid down recently by Secretary of War Weeks in issuing a permit for continuing withdrawal of water from the lake. It is to be a cut of one per cent. Under the present law the bonding power of the district is 5 per cent on each \$100 of valuation. A bill now pending on third reading before the legislature seeks to make this 5 per cent, and the purpose now is to cut the increase in half and amend the bill so that it leaves the power to increase to 4 per cent.

The action was taken unanimously

DAWES TALKS OF SENATE, BUT NOT FOR PUBLICATION

The "inside story" of Vice President Charles G. Dawes' conflict with the senate was told yesterday at a luncheon in the Adventurer's club by Mr. Dawes himself. But members of the club were pledged to secrecy.

The Vice President was scheduled to speak upon "Frederick Man." Two newspaper reporters were ejected before he arose. He is reported to have interspersed his remarks on prehistoric man with peppery comments on certain members of the senate.

"The meeting was a closed one," said all present when questioned about the Vice President's speech.

Father Admits Kidnaping; Carried Child Away in Grip

The mysterious kidnaping of Esther Simpson, 4 years old, from the home of Irvin L. Clymer, 6447 Dorchester avenue, Wednesday, was solved yesterday by the report from Dennis, O., that the child's father, Lee Simpson, has confessed to the abduction. He stole the baby from Mrs. Clymer, her nurse, placed her in a suitcase, and fled to his home in the Ohio city. Esther's mother, Allen Simpson, a vaudeville actress, is on her way to Chicago from Seattle.

WE, 468 men of the Studebaker Sales Company of Chicago, work with one purpose in mind—to make the great name of Studebaker more widely known and appreciated.

We are salesmen, clerks and mechanics. We are proud of the Studebaker reputation—proud because we know we are keeping happy 21,500 Studebaker owners in metropolitan Chicago.

Largest service station in Middle West—Our facilities are exceptional: Seven modern-service buildings with the most modern shop equipment.

The million-dollar Service Station at 24th Street and Federal is the largest in the Middle West. So complete is its equipment and stock of parts that any Studebaker model, up to 10 years old, can be built here completely.

Here also is the most complete lacquer equipment in the city—the only

establishment fitted to turn out new highly-surfaced lacquer as compared with regular satin finish.

Repairs are made on the flat-rate basis. The owner thus knows the exact cost of any job before work is started.

Studebaker owners repeat: Studebaker owners are satisfied owners. Nine out of ten, when new cars are wanted, buy Studebakers again. They know Studebaker value.

Record-breaking sales during the past six months show that more and more people in this city are recognizing the fact.

We will lend you a new Studebaker model—to try out on the road, to compare with any other car near its low price.

WATERWAY DOOMED TO FAIL, MARKHAM SAYS

Compares Erie Canal and Railway Expenses.

Reviewing Chicago's great waterway, Charles H. Markham, president of the Illinois Central railroad, last night in a speech before the Purchasing Agents' association of Chicago, declared waterway transportation between Chicago and New Orleans was impractical.

Mr. Markham based his contention, in a large measure, on the cost of shipping freight on the Erie canal.

"The Erie canal is the heart of the great eastern waterway system," he said. "The interest on the canal since 1908 amounts to \$1,000,000. Each year about 1,840,000 tons of freight are shipped via the canal. Based on the interest alone, it costs \$9.50 a ton for freight."

It would have to be reloaded on barges. This would cost more in freight rates than were the shipments made direct to Chicago over railroads.

City's Industries Off River. Then, too, most of the industries in this city are located away from the banks of the Chicago river. It has been estimated the average speed in transporting freight via the canal system runs slightly over the two mile an hour mark, while on railroads the average speed for freight is fourteen miles an hour, an added four miles an hour being given to perishable shipments.

Mr. Markham then spoke on the advisability of having the Illinois Central terminal used for the terminus of all railroads now using the Pullman street, La Salle and Grand Central stations.

"With an expenditure of approximately \$35,000,000, a terminal of that kind could be established," he asserted. "This amount would provide for the building of a new station, coach yards, and other essential improvements needed in completion of the project. The Illinois Central offers a 400 foot wide right of way and that factor alone is of paramount importance in the building of one large terminal for the railroads entering the city from the south, east, and west, with the exception of those served by the Union and Northwestern stations."

Referring to the electrification of the L. C. suburban service, Mr. Markham said the 1920 ordinance provided all service of that kind should be electrified by 1927. He said the company would beat the specified time by several months.

George L. Meyer was elected president of the Purchasing Agents' organization at last night's meeting. John C. Dinamore was elected secretary and J. A. Stafford was elected treasurer.

Five Armed Men Loot Jewelry Store of \$5,000

Five armed men held up E. B. Stever, owner of a jewelry store at 3180 North Cicero avenue, late yesterday afternoon and looted his store of jewelry worth \$5,000. Stever and Mrs. Edna Goch, 5141 Wellington avenue, a customer, were locked in a back room while the robbers worked.

Jewelry worth \$10,000 were obtained by three armed men who held up the store of Benjamin Werneck, 2847 Milwaukee avenue, yesterday. Joseph Rabinowitz, a clerk, was forced to open a safe, from which the robbers took a tray of unset diamonds.

U. S. GOLD AIDS WORLD RETURN TO SOUND BASIS

Exports Used to Build Up
Reserves Abroad.

Washington, D. C., April 9.—(Special.)—The federal reserve board has just completed a comprehensive analysis of the gold movement in 1924, and its conclusions, made public tonight in the federal reserve bulletin, show highly important steps being made throughout the world in the efforts to get back to an international gold basis. It was shown further that, for the first time in ten years or since before the world war, exports of gold from the United States have gone in the last four months to increase the reserves in many foreign countries.

Officials of the board regard the movement, which began last December, as evidence of progress among those nations seeking to reorganize their monetary systems and put them back on a stable foundation as far as monetary and fiscal reforms are concerned.

Following currency reforms.

The drawing of gold from the United States follows previous steps which included, among other currency reforms, the discontinuance of note issues as a source of revenue, the introduction

tion in some countries of new currency units with fixed relationship to gold and the adoption of a definite plan for dealing with the reparations problem.

In consequence of the developments observed by the board in its survey of the world gold situation, officials here believe the foreign nations which have been active in reform activities have increased their ability to borrow in the American and other world markets.

Credit thus established, and those who were added to the United States, have been and can continue to be used in supporting exchanges. The board was interested in the results chiefly because of the character of the demand for gold and of the circumstances that have given rise to that demand. It obviously was concerned with the trend of the movement because of its effect on the credit situation in this country.

German Demand Highlighted.

Efforts being made by the German financiers and statesmen to recover some of their lost financial ground has attracted attention and the board's survey shows that Germany has been the source of the largest demand for gold for the purpose of monetary reconstruction. In addition to using gold in rebuilding her monetary system, Germany has accumulated a considerable amount of gold, earmarked, in other countries, and is holding it for the account of the new reichsbank.

In the last twelve months, the reichsbank show, the reichsbank has added about \$120,000,000 to its gold reserve and on March 14 it held gold in its vaults and abroad aggregating \$225,000,000, or a ratio of 50 per cent. Some idea of the recovery made may be gathered from the fact that when the reichsbank was reorganized in the summer of 1924 its reserves were only \$100,000,000.

Banks of Issue Progressing.

The board's survey discloses also

that new banks of issue in ten other countries have made notable progress. The combined reserves of these banks was reported at \$200,000,000, of which \$100,000,000 have been added in the last year. Included in the list were the banks of issue in Poland, Hungary, Rumania, Austria, Lithuania, Latvia, Estonia, Yugoslavia, Czechoslovakia, and Czechoslovakia. All of them have been organized since 1919.

Drake University Summer Session to Begin June 15

Des Moines, Ia., April 9.—(Special.)—Drake university's summer session will open on Monday, June 15. President D. W. Morehouse announced today. Courses will be offered in the university's six colleges—liberal arts, education, Bible, law, commerce, and fine arts. Deans of the colleges and practically all faculty members will remain for the session.

BLAME GOLFERS FOR ASSAULT ON TREES AT LINKS

Springfield, Ill., April 9.—Arrest of persons believed by members of the Springfield park board to be overzealous golf fans was expected today after the offer of a \$500 reward for discovery of vandals who attempted to kill fifty-seven trees in one of the city's parks. Only the timely discovery of holes bored in the trees and filled with blue nitric acid prevented their destruction. The trees are located on the golf links in Bunn park and have been the subject of complaint by golfers, who maintain they "impede the playing qualities of the course."

Threats were made last fall when the park board refused to remove them.

The Blindness of Youth

In Judith's case, a girl was either a "good fellow" or she was "not of luck." For example, "What was wrong with a little drink between friends?" Judith wanted to be popular, but she could not know that in finally yielding to the temptation of her friends and taking her first little drink—just to be a "good fellow"—was to be the beginning of a mad career of folly that would end in the blackest tragedy. Never was the curse of drink brought home with such compelling force as in the story of Judith, appearing under the title, "Tangled Tornado," in *True Story Magazine* for May. And this is only one of many remarkable features in the May issue. Get your copy today.

ADVERTISE IN THE TRIBUNE

PACKERS CLOSE FIGHT TO SAVE CHICAGO MERGER

Armour and Morris Deny Business Monopoly.

BY A STAFF CORRESPONDENT.
Washington, D. C., April 9.—[Special.]—Attorney M. W. Borders, counsel for the Morris stockholders in the Armour-Morris purchase case, told Secretary of Agriculture Jardine today he did not believe the federal government would be "so cowardly as not to issue a clean cut decision in this matter, which already has dragged along for more than two years."

Answering the plea of Attorney Walter L. Fisher, government counsel, that the secretary should dispose of such cases, Mr. Borders frankly stated it was his opinion that Mr. Jardine would not "pass the buck."

If it had not been the intent of the act that the secretary should dispose of such cases, he argued, then why waste all this time in the taking of testimony and in presenting arguments to the secretary of agriculture?

Says Morris Not Amenable.
He presented a motion to dismiss the complaint as far as it affected Morris & Co., on the grounds that the contract of sale had been consummated prior to the issuance of the complaint and that at that time Morris & Co. had ceased to exist as a packing firm and therefore were not amenable to the stockholders' suit.

A man or a corporation, he insisted, has an inalienable right to sell his property, and for the government at this late day to issue a "cease and desist" order would, tantamount to ordering the Morris stockholders to rescind the packing business.

Attorney James M. Sheehan, counsel for Armour & Co., closing the general argument for the packers, also asked that the complaint be dismissed on the ground the government had failed to prove its case.

Quoted Packers' Figures.
He traced the financial conditions of both corporations.
Armour's operating loss for 1921, he said, was \$31,708,817.52, or more than half of the total losses sustained by all the five largest packers. Morris' operating loss for the same period was \$11,400,000.

"Whatever was the cause," he said, "it was a condition and not a theory which confronted both Armour and Morris in 1921, and it is doubtful whether even the hallucinations of the federal trade commission could visualize either Armour & Co. or Morris & Co. to the summer of 1922 as marked and branded with the stigma of monopoly power."

Talks for Business.
Mr. Sheehan contended no business should be harassed or destroyed, simply because it was large.

"If the secretary discovers," he continued, "that any packer is making use of unfair methods of competition, then the secretary has ample authority and efficient machinery to see that the use of such unfair methods shall be stopped. Local price cutting or manipulation, blacklisting, boycotts, discrimination and preferences, espionage, intimidation and coercion may be eliminated by order of the secretary."

When the statute, Mr. Sheehan, is remedial, not punitive, it contemplates that you shall regulate and that by your regulation unfair methods will be prevented; and without the use of unfair methods, no monopoly ever has or ever can be erected in a business which is naturally competitive."

MISSION HEADS ANSWER CHINESE RADICAL ATTACK
SHANGHAI, April 5.—The national Christian Education association, composed of leading American and British mission bodies, today published a carefully written defense against attacks by Chinese radicals affiliated with anti-Christian organizations.

It asserts that Christian schools have a clear right to function in China to the service of children in Chinese Christian communities. It says that the Chinese constitution recognizes freedom of religion and that mission schools have a clear right to teach religion.

Answering the charge that Christian schools denationalize the youth of China, it declares that the mission institutions are not connected with foreign imperialism and their purpose is service for the best interests of China.

The meeting was presided over by Dr. L. H. Hawks, Fort Richmond, Va., president of St. John's university, Shanghai, and Vice President E. H. Hays of Yale university, resident at Yale in China at Changsha.

Gain 5 Pounds In 30 Days or Pay No Money
That's the iron-clad Guarantee behind Dr. Cass' Cod Liver Oil Tablets.

It's no trick at all, as hundreds of people have learned in the past few months, to put on good solid flesh with Dr. Cass' Cod Liver Oil Tablets.

Suggested, Dr. Cass' as easy to take as a bottle of soda water, and certainly so to the business building you new pay and energy. They're giving children, too—giving them appetite and vigor.

If you're tired of being scrawny and run-down, go to your drugstore and get a bottle of Dr. Cass' Cod Liver Oil Tablets. We make this positive guarantee: Take three bottles of Dr. Cass' Tablets, according to directions and at the end of 30 days if you haven't put on at least 5 pounds, if you don't feel like a new person, your money will be cheerfully refunded.

You're nothing to lose and everything to gain, so start the treatment today.

MORE WOMEN DRINK, MORE PAUPERS UNDER DRY LAW, IS CLAIM

Detroit, Mich., April 9.—[Special.]—Some sensational liquor statistics were made public today by city officials charged with welfare work. These showed drunkenness among women in Detroit is increasing.

Ninety-eight per cent of the more than 1,000 cases that came before the reconciliation bureau of the Domestic Relations court each month are due to alcoholism.

An average of 400 persons are admitted to the county poorhouse at Eloise each month, 60 per cent due to liquor.

Hundreds of children in Detroit are assisting in the manufacture of home brew.

More than five times as many acute alcoholic cases were admitted to receiving hospitals during 1924 as were admitted in 1921.

H. W. Zahm, director of social service, declared that a few years ago drinking men got drunk on pay day night and stayed drunk over Sunday. Today when a man gets drunk on Saturday night it is impossible to get sober by Monday morning and the result is the loss of his job. He emphasized that more women are drinking now than ever before.

Wife Pays Husband's Bill, Saves Him from Jail

Although he had deserted her for a month, Mrs. Fred Letich, 3228 North Sacramento avenue, yesterday saved her husband from jail and then became his probation officer for a year. Letich pled guilty to passing worthless checks—\$150. Mrs. Letich got the money from her father and made it good. Letich was arrested with Ray Temple, who fired ten shots at Sgt. Leo Carr. But when the money was made good and Mrs. Letich pleaded for him, Howard Hayes put him on probation to her.

SAYS CITY PAYS TOO MUCH HEED TO LAKE FRONT

Chicago's record of beautifying its lake front at the expense of its interior and outskirts was criticized yesterday at the City club by Jens Jensen, noted landscape architect, who spoke in support of the proposed parkway along the drainage canal north of Evanston.

"We are putting all our attention to the lake front, which never can get away from us," he declared. "We are paying no attention to the interior of our city whatsoever, forgetting that if we ever want a beautiful Chicago we must develop the interior as well as the rim of the city. We must remember that it is in the interior that the folk live in and it is there that the real beauty of our city or any city is felt."

"Let us develop our city along its geographical lines, just as any city ought to be developed, in order to its beauty to the fullest measure what man can do in building a city."

DIES FROM FOOD POISONING.
About City, Ill., April 9.—[Special.]—Late yesterday, 64-year-old, general superintendent of the Johnson Hecht company, died this morning after an illness of twelve hours. He was stricken at the dinner table at home yesterday, and physicians say death probably was due to food poisoning. A post mortem will be held.

3 Legislators Named to Arbitrate Flood Claims

Springfield, Ill., April 9.—Acting on the request of the Chicago sanitary district, Speaker Scholes of the house of representatives appointed an unofficial committee of three to arbitrate claims for damages due to floods and seepage along the Illinois river as a result of diversion of Lake Michigan water.

The three are: J. G. Van Kuren, Duquoin; F. E. Carpenter, Rockford; W. C. Radcliff, Bloomington.

CHANGING conditions sometimes make it impossible for us to keep old family pets. Remember, when that day comes, and when it is decided that Rover or Nipper or Hector must go, that you can easily find another good home for him through the Want Ads.

DURING the course of every week hundreds of Want Advertisers get in touch with and sell their cars to financially responsible prospects simply because they realize the ability of Tribune Want Ads to carry their offers to an adequate market.

MACHINERY and equipment which are outgrown can be sold—sold promptly—by means of the Want Ad columns of The Sunday Tribune. If you have some for sale, or if you are on the lookout for equipment, it will pay you to use and to watch the "Machinery and Tools" classification.

EMPLOYERS, a good stenographer is always worth the necessary good remuneration to get her. Remember, an employee is either an asset or a liability, and a good secretary is an indispensable business acquisition. Also remember, preferred office workers read The Tribune.

Enterprising People *seek opportunity* through TRIBUNE WANT ADS!

WHEN this continent was in the early stages of its development there was an old saying that "Opportunity Knocks but Once." But today, in our highly competitive state of life, with so many more people seeking him, Opportunity seldom gets as far as the door; you must meet him *at the gate*, or your neighbor will.

Consequently, people of enterprise and forethought, having something to sell, services to offer, or who want to buy, go out to look for their legitimate prospects. And they do this through the Want Ad Sections of the great newspapers, than which there is no more effective or direct way.

If you want to buy or sell a house or an auto, a radio or furniture; or if you want to hire help, remember you can harness to your need The Tribune's gigantic presses, its army of skilled newspaper makers and distributors, who drive themselves to the utmost in human activity in order to deliver your Want Ad message to millions of buyers in the great Chicago Territory. Phone CENTral 0100, "Adtaker."

The Chicago Tribune

THE WORLD'S GREATEST NEWSPAPER

THE amount of real estate sold through Tribune Want Ads every month would in itself constitute a fair sized town. Real estate investors and constant readers of Tribune Want Ads, and if you really want to sell, here's the way to do it.

ALL kinds of business enterprises are sold regularly through the "Business Chances" columns of The Tribune. No matter what the character, location or nature of the business, if you can sell it if you will but try.

AND here is a very useful classification in the Want Ads—"Office Devices" can help you to defray the cost of new equipment when the old and office force have outgrown the old.

THE radio season is just at its height and there are plenty of buyers anxious to acquire all kinds of sets. Anyone who has a radio set to sell can dispose of it quickly and without trouble or inconvenience through a Tribune Want Ad.

PEOPLE who cannot afford to buy a new piano, and who still feel the need of having one, look for a good used instrument in The Tribune Want Ad Section. If you have one for sale, sell it here.

Good Press
St. John, N. B., April 10
before sailing on the
Montclair for
Liverpool this aft
noon the Count
and Countess Ka
rolyi gave "fare
well" interviews
to reporters who
had accompanied
them from New
York.
Countess Karolyi, who did most of the talking, the count saying that he had said pretty nearly all he wanted to say in Montreal, revealed for the first time the reason given to her by the state department in exacting a pledge from the count when he United States in January. She quoted William R. Clegg of the division of foreign affairs of the state department as saying the count was dangerous because he had visited Italy in 1929 on a propaganda tour. He said, was the information come to the state department from Italian spies. The charge was that he had been from Italy because of his visit propaganda in Florida. "It is true that we were from Italy, but it is not true that we are circulating any propaganda against us was false. The year after the revolution in Hungary, of course, had already left Florence only as the Hungarian government succeeded the Bolsheviks. We happened to be in Florence. The Szecsenyis entered and have many influences in Washington. At lunch one evening, over the tea table, Countess Karolyi was asked the gossip through official Washington that Countess Karolyi was a wild, dangerous woman not to be allowed in the United States." "May I say a Good Press to Countess Karolyi, who had been to the conversation, in my opinion, she was not dangerous. She said the count had not been for them. America would have known what he wanted to hear what I said. The American press would have been possible to write articles. I must say I am for my article. It is a very good press agent. "Yes," replied the countess. "The count was president of the rotary league when I arrived, and who tried to save the country. He was not a 'red count' as I should say Mr. McCarthy. If my husband is dangerous, I should say so." When he arrives in London, Countess Karolyi said, she will be propaganda as a member of Admiral Horthy's cabinet.
